

Music tuition and Learner ensembles

Individual primary and secondary schools can only run a limited range of music ensembles, if your child cannot find a suitable ensemble at their school (or they are pre-school age) they could consider joining one or more of the many different "learner" ensembles run at various centres in the region; often these ensembles meet on secondary school or college premises after the school day or on Saturdays. Listings below are alphabetical.

There is usually a termly fee to join an ensemble. Although chiefly aimed at secondary school pupils some ensembles also welcome adult players. Some ensembles are linked to Music centres or Academies that also provide tuition. For more information please visit the related websites.
